MERCE ORE BODY AT BOTTOM OF THE SHAFT. ENGINEERS AND MINERS' OPINIONS OF THE CLAIM

last report was made the shalt had to shape to start the drifts at the reached a depth of 145 feet 6 inches. 166 foot level, when we shall cover it is now 181 feet or 18 feet below tain the increased width of the eather second level at 166 feet. The lad- at this level, and I have no doubt der way has been extended from the that we shall find the pay streak side arst to the second level and the time very much approved, the manner that pering on the level is now completed. A drift has been made on the sectible surface both as to writh and tall ond level and a water sump sunk, he is most remarkable and indicated, where all the water from the face down will be caught. If is parent that the shall at the seconevel is below the water line and the There has never been a point all the sinking in future will be much more ageecable. An excavation has been made by the side of the water sump, the pump lowered, and the pipes extended from the first level and in-stalled there. The air compressor pipes have also been extended from the first to the second level, and the drifting has now been commenced. There is always a very large amount of timbering, piping, extending ladder ways and other work to be done on each level which requires to be i the most substantial character as all what appears to be a steady force of the ore taken from the mine for of good miners and the prospects are ptobably another shaft. The width have nover at any time had as much of the vein at this 186 foot level is confidence in the name as now. and known to be wider than at the, 100 the prospects are growing bright foot level, but to what extent has fall the time, The Mikado, Indian Joe not yet been ascertained as the drift- M. 11, and Gold Reefs, all in ice both ways across the vein to the immediate vicinity are being active walls has not been done ift will howerer be done at once land as soon communications can la made ice. we shall know the results understood the real conditions

both as to width and rickness of the the value of the mine." vem at this level. You will eximenher that the pay streat hes along the of Nov. Mr. Rideout says: "On foot wall side of the v a and that I finh, the east drift wa

the pay streak has not been cut level through good quarte but since leaving the 100 foot here. and the enough to reach the rich most satisfactory results are ancient atreas. RAT PORTIGE, DEC 18, 1900.

* as refreshing, after reading of the cowardice and selfishness of Kruger, and Leyds to hear of Boths taking, action against these alleged patriots' to recover state monies which they stole, in order that they may be returned to the men who not only fought for their country, but actually created the wealth these two men have stolen General De Wet is anoth er brave and honest man who Englishmen have considered it an honor to shake hebds with, and the book he has just issued shows the a noble traits of the man. The most interest ing thing about General De Wet's book on the Boer War is the bio graphy that may be picked out of it by a careful reader. The last thing De Wet seems to be thinking is , to exploit himself; but he cannot hide the fact that he is by far the gest figure in the scenes he is cribing. The thing second in interest is the extraordinary constitution of the Boer army, which explains at once the tenacity of the war and the marvellous achievements of its last

commander! It was the most democratic larmy of modern times and realized | Napoleon's boast that every soldier carried a marshal's baton in his keapsack. The promotions in it were re- Tonic Rood.
